

Bleeding Israel

Hillary Clinton has a lot going for her in 2016. Among her primary assets we might list genitals (aka “first woman”), Bill’s and Barack’s coattails, pastel pant suits, felons, feminists, plus sizes, dependents, gender benders, hyphenated minorities, and anti-Semites. Mrs. Clinton doesn’t have much in the way of achievements, but she does have a grab bag of constituents, a checkered past, and a righteous resume.

Alas, like husband Bill, her history, no matter how shady, doesn’t seem to

matter. Indeed, Hillary may go in the books as the second no-fault presidential candidate in American history. Her resume, indeed, is an artfully contrived vitae where election, appointment, or position has hip-checked character, failure, and achievement deficits out of the public square.

Nevertheless, Hillary's coterie of anti-Semites is a unique group that provides a window on probable foreign policy vectors of another Clinton presidency. Three of the more notorious American Jew haters have been [flagged](#) by their appointment to the 2016 Democrat Platform Committee.

In order of descending importance they are: Arabist James Zogby, Princeton pedant Cornel West, and Congressman Keith Ellison, representing the Minnesota [caliphate](#). On paper, all three are supposed to be [Sanders'](#) delegates. Yet, their mere presence in Democrat inner circles says all that needs to be said about the American Left, Islamophiles, and attitudes towards Jews and Israel.

James Zogby

James Zogby, the Arab lobbyist, is not to be confused with John Zogby the pollster. The two are, in some respects, in the same business. Still, they are not the same person. Although, they are family; literal and liberal Lebanese Arab brothers with common interests.

James made a career in the "non-profit" [rackets](#), mainly Arab American advocacy groups like Arab American Institute and the American-Arab Anti-Discrimination Committee. The AAI is the "political and policy research arm of the Arab-American community." The emphasis here is clearly on the adjective. Both brothers are good examples of the hyphenated politics that [balkanize](#) the American left.

James Zogby served with the Gore and Obama campaigns and he is a visiting professor at NYU, Abu Dhabi campus. The elder Zogby is also a member of the executive committee of the Democrat Party. James Zogby's anti-Israel credentials include rabid [support](#) for terrorist *Hezb'allah*, frequent condemnations of Israel, and characterizations of Jews as "Nazis."

James Zogby makes the top of the DNC anti-Semite list because between him and

his brother, they are capable of spinning news, [opinion](#), and any associated Arab, Muslim, or *jihād* propaganda.

Cornel West

Other than Louis Farrakhan at the Nation of Islam, Professor Cornel West of Princeton might be the signal anti-Semitic role model in black America. West brings academic gravitas to the role. On the one hand, West plays the home boy race card with effect, at the same time vilifying Jews for “occupation and annihilation.”

West’s favorite media stooge is [Tavis Smiley](#) of PBS. Professor West and Smiley are often seen as an Islamophilia tag team, [apologizing](#) for Muslims on the public dime. Anti-Semitism is now a prominent [feature](#) of black American culture nationwide. Professor West and Smiley count Louis Farrakhan, NOI high priest, unapologetic misogynist, and Jew hater, as a touch stone in skin game circles.

Up at Harvard, Professor Louis Gates is a study in contrast. Gates uses his academic chops honestly, recognizing the role of black Africans and Muslims in historical and contemporary slavery. *Boko Haram* takes a bow here. Gates also [recognizes](#) the corrosive effects of epidemic anti-Semitism among blacks in America. Legit scholars like Louis Gates, needless to say, play no role in the DNC “diversity” mix on the 2016 Platform Committee.

Pfleger, West, Farrakhan, and Smiley

Keith Ellison

Keith Ellison is the American face of [stealth](#) Jihad and another “first” phenomenon on two counts. He is the first black and the first Muslim congressman from Minnesota. Keith is also a *converso*, a former Catholic, like Lew Alcindor, converted to Islam when black rage and Islam was hip. Congressman Ellison is most famous for taking his oath of office from Nancy Pelosi in Washington on a Koran.

Ellison has been cagey about his conversion, but his ties to the Nation of Islam and Louis [Farrakhan](#) are matters of record. He has written in support of Farrakhan on more than one occasion under a pseudonym. Ellison also has extensive personal, political, and financial ties to the American Muslim *jihad* net through such organizations as Council on American Islamic [Relations](#), Muslim American Society, Islamic [Society](#) of North America, Muslim Public Affairs Council, North American Imams Federation, and the notorious Saudi-funded American Open University in Virginia, a kind of seminary for Muslim clerics.

Former AOU chairman Ja’far Sheikh Idris considers American democracy to be “the

antithesis of Islam.” He also [claims](#) that no one “can be a Muslim who makes or freely accepts or believes that anyone has the right to make or accept legislation that is contrary to divine (Islamic) law.”

If the telltales on the DNC Platform Committee say anything, Hillary Clinton, like her husband and Barack Obama, is unlikely to do anything about [growing](#) anti-Semitism at home or the Arab/Muslim tilt abroad.

Most American Jews, ironically, already lean left. Likewise, black America is a veritable liberal or Democrat Party plantation. When irredentist Muslims are thrown into the mix, the stew in “progressive” America becomes a critical mass of anti-Israel, anti-Jew bigotry.

Political diagnosticians argue that American Jews vote with, and fund, the Democrat Party because the diaspora sees [classic liberalism](#), separation of church and state, as the bedrock of survival. The argument suggests that conservative Christians make Jews nervous, given the history of Church persecution. In fact, today’s evangelical Christians are more ardent supporters of Israel than so-called [J-Street](#) Jews. On the darker side, American blacks and Muslims of all stripes are monolithically anti-Israel, if not [wholly](#) anti-Semitic.

The great irony of the so-called Jewish, or Mideast, question today is that secular social democracy in the West has aligned itself with the ferocious theocrats of the Muslim right. Saudi Arabia, the Emirates, Iran, and Turkey are but four prominent examples. The Muslim tilt inside the Beltway transcends American political parties now; both still subscribe to the “two state’ fantasy, a placebo that should have expired with the rise of *Hezb’allah*, *al Qaeda*, and ISIS. Traditional Palestinian terror groups are now outflanked on the religious right by state-sponsored Shia and Sunni fanatics worldwide.

Indeed, one of the most prominent sponsors of Islamist religious mayhem today is a [clueless](#) American administration that supports theocracy in Saudi Arabia, Iran, and Turkey; again, just to name a few American “allies,” – in practice toxic state-sponsors of anti-Semitism, Arab terror factions, and lethal Islamic *jihads*.

Barack Hussien Obama may not qualify as an out anti-Semite. Yet he is clearly the most hostile American president since 1948. There is no evidence to suggest

that Hillary Clinton's attitudes towards Jews and Israel will be different.

Terror has become so commonplace, that after each atrocity these days, liberal America immediately changes the subject. Call it terror fatigue. Take the recent Orlando homosexual kill, if you read a [newspaper](#), or listen to the administration, you are led to believe that the Bill of Rights and not the Koran was the inspiration or cause of the massacre.

Outlook

If *Hamas* and *Fatah* were to make a real deal with Israel today, *al Qaeda* and the Islamic State would make short work of those Palestinian factions tomorrow. If Jews were to accommodate those same terrorists tomorrow, such a pact would be a death warrant for Jews too. A Palestinian state is not a peace plan anymore so much as suicide pact for *Fatah*, *Hamas* – and Israel.

Maybe that's the hidden agenda for both American political parties; not if, but when Israel is to be thrown to Mohammed's wolves. A win for Clinton, promises more of the same, a kind of hideous end game for homeland Jews. A defeat of Hillary in 2016 offers the possibility of a change in American policy.

Surely, Israel cannot bleed forever.

Insh'alla!
