

# Coming to a Mosque Near You: "Pimping for Terrorists"

by Jerry Gordon (September 2010)

Backgrounds said Mosab Hassan Yousef "Son of Hamas."

He noted the FBI documented that the Holy Land Foundation sent \$12.4 million from the U.S. to Hamas committees. But based on his 10 years of experience as a spy for the Israeli internal security service Shin Bet, he believes many times that amount has been smuggled to Hamas in cash.

As an example, Yousef cited the case of a Palestinian terror operative he met in prison who was arrested transporting \$100,000 after Shin Bet provided information to law enforcement authorities.

"I guarantee you that there still people who collect money in mosques that go directly to Hamas in cash," Yousef said. "And this is a problem that the government doesn't have control over. Obama doesn't have control over this money."
