

Self-Sabotage in the Name of K. Marx (Who He?)

by Richard Kostelanetz (November 2016)

Kenneth Goldsmith, *Capital: New York, Capital of the 20th Century*
Verso, 911 pp., \$44.95

I'd like to like Kenneth Goldsmith's *Capital*, a brick of a book of short texts about my hometown New York City, its size and form echoing Walter Benjamin's classic *The Arcades Project*
