

# To Save Democracy

by [Armando Simón](#) (August 2024)

"To save Democracy" elites successfully censor all Hate speech—which is speech they hate.

“To save Democracy” cancel culture ends careers  
While comedy can't be funny nor caustic.

“To save Democracy” Antifa Blackshirts assault senior  
Citizens praying while screaming their obscene slogans.

“To save Democracy” we must all unify,  
Speak as one and think as one.

“To save Democracy” we must turn the  
Two Minute Hate into the Two Hour Hate.

Meanwhile,

“To save Democracy” the elites try to  
Jail My candidate before the coming election.

“To save Democracy” elites remove My candidate's  
Name from the list of candidates' names.

“To save Democracy” some votes seem to  
Vanish while his opponent's votes mysteriously appear.

“To save Democracy” My candidate's almost murdered  
By a bullet loaded by the media.

Now you, never thinking never questioning, you  
applaud the perpetrated assassination attempt  
While snarling at My candidate and sneering,  
Calling us “Nazis” and “fascists” and blindly  
Unaware of the irony of your words.

Meanwhile,

To save OUR Democracy our Overlords try  
Redoubling their demonic efforts securing THEIR Democracy.  
“The next attempt must definitely not miss.”
