"Home Hill Stabbing: British Man Tom Jackson, Injured in Backpackers Hostel, Dies in Hospital".

*Sic. He was not 'injured'. He was **attacked**, with intent to murder, and he did indeed die as a result of the wounds inflicted upon him. – CM*

'A British man who was critically injured in a stabbing attack at a north Queensland hostel last week has died in hospital.

'Tom Jackson suffered multiple stab wounds to his head and leg when he tried to save Mia Ayliffe-Chung at Shelley's Backpackers in Home Hill, south of Townsville, last Tuesday night.

*That Mr Jackson failed, and was killed, does not diminish the fact that he tried to defend Ms Ayliffe-Chung, a fellow Infidel under murderous attack. He confronted a high-on-Islam allahu-akbarring ghazi raider who had, previously, pretended to be his "friend". Like many other Infidels who have similarly trusted and befriended a charming Muslim he discovered – that his Muslim 'friend' had morphed, terrifyingly, into a murderer. And now he is dead. – CM*

French national Smail Ayad, 29 (that is: "French-passport-

*holding ethnically-Arab Muslim Smail Ayad, 29" – CM) has been charged with murder and attempted murder over the stabbings.*

*'Queensland Police said they would upgrade charges against Ayad in his next appearance at Townsville Magistrates Court on October 29.'*

*Mr Ayad, despite his French passport, should never have been permitted into Australia. Had he not been permitted to enter two people – Mia Ayliffe-Chung, and Tom Jackson – would still be alive, who now are dead.*

*No more identifiable Muslims, ever, should be permitted into any majority-Infidel country, anywhere. And those already inside the gates must be very narrowly watched, and not allowed to get away with anything, and their vociferous and whining demands for special treatment of every kind should no longer be countenanced, and those not possessing citizenship should not be granted it, and every opportunity should be taken, to encourage and to facilitate their departure. – CM*
