"Palestine" by Ayatollah Khamenei

Read Amir Taheri's highlights from a Shiite Islamic theocratic book by Ayatollah Khamenei published in an August 1, 2015 *New York Post*. It is a veritable manual on how he intends to erase Israel and replace it with a Muslim dominated state, "Palestine" the title of his road map. Justification for this Khamenei explains in this tract is rooted in Islamic that all places conquered by the sword of Jihad are a trust forever decreed by their god Allah and must be retaken and population subjugated and treated as dhimmi with few rights. His technique is to use low intensity conflicts making life uncomfortable for the majority Jewish population in Israel. Hence the rocket wars from proxies Hamas and potentially Hezbollah as occurred during the Second Lebanon War in 2006. These asymmetrical conflicts coupled with the threat of a nuclear attack by Iran would under Khamenei's plan would force the vast majority of Jewish Israelis to return to their countries of origin.

Only such Jews could remain as subjugated dhimmi in his Muslim version of a state if they can prove they are descended from the original inhabitants. He would sponsor a referendum for

eligible Palestinians to return, including the majority of residents in Jordan. Clearly Ayatollah is reflecting on how well President Obama caved to his demands during negotiations for the nuclear pact endorsed by the UN Security Council isolating Israel in the process. When translated from Farsi into Hebrew and English Khamenei's "Palestine" will doubtless provide fodder for Israelis and Americans urging rejection of the Iran nuclear pact and consider taking pre-emptive actions to quash the Ayatollah's nightmarish pan-Islamic plot. Maybe it's time for their nemesis, the Dajjal their feared Jewish equivalent of an evil anti-Shia jinn to arise from Khorasan with a force to destroy their apocalyptic vision. Just like the legendary Jewish rising in ancient Persia read in the Megillah of Queen Esther during the Festival of Purim, when the plot of Haman the Agagite, vizier to King Achashverosh, to destroy all Jews was foiled and both he and his ten sons were hung. Perhaps Khamenei is the contemporary Haman the Agagite and will suffer the same fate at the hands of his own people. Alevai!
