

Carlson: Are we living in a giant ant farm?

See beginning about 36:50. Scott Adams has raised the question of life being “seeded” as well. A clip taken from the longer video above [is here.](#)

Tucker Carlson doubles down his knowledge of “aliens,” suggests the US government may have entered into some sort of agreement with them. The comments from Tucker come days after he said what he has learned about “aliens” is so dark he won’t even tell his wife. “They’re not aliens, they’ve always been here. I do think it’s spiritual.” “That’s my view, again, it’s not provable but based on the evidence...” “If the US government has in fact had contact with these beings and has entered into some sort of agreement with them, it’s a very heavy thing.” Tucker previously said that the things he has learned regarding “aliens” are so dark that he won’t tell his wife. “There are parts of that story that I do not understand at all that are really, really, really dark. It’s so dark that I haven’t told my wife about it,” he said. “Parts of the government don’t want you to know about it, but part of it is the public can’t deal with it. It’s too far out. The implications are too profound.”

It seems they may have had an interaction with [Life Carriers](#).

The Urantia Book, paper 36: LIFE does not originate spontaneously. Life is constructed according to plans formulated by the (unrevealed) Architects of Being and appears on the inhabited planets either by direct importation or as a result of the operations of the Life Carriers of the local universes. These carriers of life are among the most interesting and versatile of the diverse family of universe Sons. They are intrusted with designing

and carrying creature life to the planetary spheres. And after planting this life on such new worlds, they remain there for long periods to foster its development.

We will be covering the Life Carrier paper shortly in our regular Sunday posting of the *Urantia Book*. The next paper in sequence is #30 and the section covering our Local Universe begins with paper 32. There is nothing frightening about this. Tucker just needs to read the *Urantia Book* and his many questions will be answered.
