

Charlie Gard, hope, hate and us: Exploring what made so many people so angry at the Great Ormond Street Hospital

by Theodore Dalrymple

Is it better to live in false hope than in no hope at all? It depends, of course, and varies from case to case; but it is possible that the false hope of a miracle cure given to the

parents of Charlie Gard, the English baby with a rare genetic disease, will embitter them for the rest of their days.

They will continue to believe that, but for the malignity of the staff of Great Ormond Street Hospital in London, who opposed Charlie being sent to New York for experimental and unproved therapy, their baby would have survived and lived happily ever after. This thought will gnaw at them to no good purpose.

They [*NY Daily News*](#).
