With the various Islamist Arab and Arabized Iranian jihadi slaughter of Kurds and Iranians once again making news, along with that of black African, Druze, Assyrian and other Middle Eastern Christian victims as well, as a NPA Independent who voted for you twice, and via published articles have encouraged others to do so as well, I'd like to share some thoughts with you regarding the plight and quest for justice for the Middle East and North Africa's (MENA) various peoples.

To help provide you with some credentials, my work on these topics has been placed on recommended reference lists in such places as Paris's acclaimed Institut d'etudes Politiques (Sciences Po), and

Georgetown, the American University of Beirut, Cornell, NYU, UF, Wesleyan, Penn State, Kobe University, UC-Irvine, the main library system of the Abraham Accords's United Arab Emirates, and numerous other universities are using my published works as well.

I've been intimately involved with the study of this region for well over fifty years now.

Please have some knowledgeable person/people on your staff read this response to the numerous texts and emails I receive from your team every day.

As someone who, once again, has supported you, as a proud American, I must also exercise my right and obligation to express my well founded concerns over your recent actions...like encouraging hundreds of thousands of Iranians to rise up and overthrow the murderous, tyrannical regime of Arabized Islamist mullahs who take no pride in Iranian identity and who have been slaughtering their own people, but then doing nothing for a month now to end this nightmare.

Mr. President, the Shi'a Arabized and Islamized Iranian mullahs, masters of legitimate lying and obfuscation (taqiyyah and kitman, etc.), have been playing you for years, and you're allowing them to do this again right now.

I am offering a series of well researched analyses below related to what's happening today regarding the Arab-Israeli conflict, America's loyal 41 million Kurdish friends and allies, who've already suffered thousands of dead and many more wounded fighting America's jihadi foes in the region, & the momentous Iranian situation. The time to act was YESTERDAY, but tomorrow will do...

Please begin by taking pride and reading your former great Secretary of State, Mike Pompeo's, courageous and unique call for America's support for freedom and independence for the Kurds, whom America, unfortunately, is once again, under your watch, betraying due to the influence of anti-Kurdish/anti-Israel Islamist Turkish and black African slaver autocratic Arab oil potentate influence on your decision making as well as those of the traditionally hostile State Department.

Here's [SoS Mike Pompeo](#), and why wasn't he given an important position in your cabinet this time around? I have some ideas why, but hope I'm wrong..

Mr. President, your first term in office was amazing regarding the Middle East, incomparable, and I wrote [about it here....](#)

[and here...](#)

[and here](#)

But, unfortunately, things evolved during your second term; I would have liked to have seen you effectively eradicating the horrendous terrorist threat first from Gaza and elsewhere in the area.

[Gaza thoughts](#): and [also this](#)

And, intentionally or not, what has been forced upon Israel may indeed lead to [what's penned below](#), unless Israeli leaders do what must be done for the survival and best security interests of their sole resurrected, minuscule, vulnerable nation regardless of whose feathers get ruffled:

Mr. President, this next important analysis hosts a warning of what policies should not be pursued if you want your legacy to be better than the other American leaders mentioned below. Let's just say that legendary journalist, Pulitzer Prize winning William Safire of the NYT wrote a series of articles

exposing this American travesty, " The Sellout of the Kurds."

Indeed, as I'm sending this to you, America's most loyal friends and allies in the region, besides Israel, some 41 million TRULY STATELESS people, the Kurds (note: Arabism has almost two dozen states to date, including one carved out of almost 80% of the original Mandate of Palestine and known as Jordan today, and gained via the conquest and confiscation of other native peoples lands), are being slaughtered by the new jihadi president of Syria in a suit, your new found friend.

Surely you know that this ISIS/al-Qaida type Islamist is no different than dressing Hamas or "pay to slay" Fatah leaders in suits as well.

Please trust me when I say that [you should read the following](#) yourself or share with your great new SoS Marco Rubio...

Syrian Kurdistan has the only functioning real democracy in the region besides Israel, and its women have rights unheard of in most other Muslim lands. Ditto for Iraqi Kurdistan. Not perfect, but light years ahead of anywhere in the "Arab" world, or Arabized world of Afghanistan, Pakistan, etc. as well...SO WHY ARE YOU abandoning these courageous people to their Arab executioners?

Professor Ismet Cherif Vanly wrote his "The Syrian (Arab) 'Mein Kampf' Against the Kurds in 1968, and things have only gotten worse ever since.

In Arab Iraq, the legacy there was even worse. In the Anfal Campaign alone (not including before and after it), over 250,000 Kurds were gassed to death and otherwise slaughtered.

Why the call for a 22nd state, and a highly likely terrorist one at that, in all probability, for ARABISM, but the anguish and plight of America's loyal Kurdish friends and allies remains ignored?

Might the influence of black African slaver, Kurd hating Arab oil potentates and Islamist Turks have something to do with this nauseating truism? Would-be Sultan Erdogan the Great's Turkey has outlawed the Kurds' language and culture and has slaughtered many of Turkey's own 23 million "Mountain Turks" as well.

The Turks have indeed been engaged in cultural genocide regarding these people, to the point of not even recognizing their existence as "Kurds," as can be seen by the new name bestowed upon them above.

And these are the same folks, also haters of Israel and enablers of fellow Islamists in Hamas, whom you want included in the Gaza peace keeping force.

Why? Are they neutral in their approach to this Hamas butcher-sired conflict with Israel?

Kurdish women in Syria, along with Yazidis, Christians, and Druse who are also being targeted, are now being gang raped and slaughtered by your friendly Syrian leader's assorted jihadi military forces...the same as what occurred in Israel on October 7th, 2023.

Mr. President, here's a [review](#) of some earlier shameful actions which, unfortunately, are now being repeated while you're in office:

You are to be commended for a number of great achievements, and the appointment of your amazing Secretary of State, [Mike Pompeo](#), was excellent. He recently became the first major American leader to finally come out and endorse Kurdish rights and independence, just at the same time you appear to abandon them...

Instead of America withdrawing support from our Kurdish allies at a time when they need us the most, America should be reinforcing its own forces there—indeed, replacing the bases

it lost in Erdogan's Turkey, like Incirlik, with [bases in Kurdistan](#) instead..

Turning to Iran, with fears that you're also merely being "played" by the mullahs in addition to the Islamist jihadi new leader in Syria, while scores of thousands of Iranians and Kurds are once again being slaughtered, please pay close attention to [this next necessary analysis](#):

Summing things up for now, please revisit your approach to assisting our loyal Kurdish friends and allies and read Mike Pompeo' article in one of the above links.

If America had gotten behind independence, promised to them after WWI, but axed as a result of a collusion of British Petroleum Politics and ARABISM/Arab Nationalism, they'd have their deserved independent nation by now.

They pre-date invading Arabs and Turks in the region by millennia.

And just one other thought for now...

If America can claim sovereignty in places like Samoa, Guam, American Virgin islands, Puerto Rico, and as you wish, Greenland, how do you and others dare question the Jews's 4,000 year old ancestral rights in places in Judaea and Samaria where Hebrew Prophets preached, and the Prophet Samuel anointed David King of Israel in Hebron; where the Hebrew Patriarch, Abraham, purchased a burial site for the Jewish People's Patriarchs and most of their Matriarchs.

Or where David was born in Bethlehem, the Hasmoni family of "Maccabees" (hammers !) rose up in revolt against pagan Greeks and Syrians trying to convert them in Mod'in; David's son, King Solomon, built the first Temple in Jerusalem; Judaeans warriors held off the Roman army for years atop Masada, in the Judaeans (not "West Bank") Wilderness overlooking the Dead Sea; etc., etc, etc...

Great Britain can go to war 8,300 miles away from home to claim sovereignty over the Falkland Islands, but Jews have no claims to the place where both King David and another great Judaeen leader, Yehoshua/Jesus of Nazareth were born a thousand years afterwards in Bethlehem?

Ponder that please before you assail Jews claiming sovereignty in at least part of their ancestral homeland in Judaea and Samaria.

The Arabs were the foreign jihadi invaders arriving in the 7th century C.E., slaughtering millions of native peoples throughout the region as they exited a fast desiccating Arabian Peninsula and forcing stealing other peoples' ancestral homelands, and next claiming them solely for themselves and forever part of the ever expanding Dar ul-Islam.
