Exclusive: IS Bombers In UK Ready To Attack

Islamic State is now focused on urging British would-be recruits to carry out "lone wolf" attacks in the UK instead of travelling to fight in Syria, <u>here.</u>

Already stretched, British security services cannot afford to ignore the possibility that seven bombers could be operating in the UK. Whether they are real or not is impossible to know, but Jones now believes there is an eighth – our character.

Until this week our communications have continued. Her final message? A clear and cold blooded: "Do it."
