

Finchley: Quelle horreur – the anti-fascists are also anti-semitic

[Sarah Sackman MP for Finchley](#), North London, a district with a large and well-established Jewish community on the anti-racist demonstration last night

Concerned residents have shared posts with my office relating to so called “anti-fascist” groups in Finchley which are clearly antisemitic. I will not amplify or platform those voices. Instead I have reported them to the police and CST. I advise others to do the same. 1/2

I’ve said it once and I’ll say it again. Whether it’s the far right or far left there can be zero tolerance for antisemitism, Islamophobia or racism in any form. There is no place for such hate in our community. 2/2

This is a very serious allegation being made against anti-fascists who risked their safety to take to the streets, and drive away fascists menacing the lives Muslims and people of colour.

This Labour MP should share these posts, and make clear who they relate to specifically.

Labour MP for Finchley and Golders Green. Solicitor General. Former environmental lawyer. Still a community campaigner. Best of all, mum to two amazing girls 🍷

Tottenham and Haringey Palestine Action took down the notice in question. It may not have originated with them, however. I'll copy it for her. Others are not so squeamish and there are plenty of copies around, many of which have been referred

to the police.

I think the use of BIPOC is amusing here. The 'I' of course stands for indigenous. Indigenous as in First Nation Americans, or Native Americans or Alaska natives or whatever is the best way to refer to them. Not the original English inhabitants of London, many of whom are descended from the British tribes conquered by the Romans. And definitely not the well-integrated Jews who have been an asset to us for centuries.

[I know this is serious](#) but can we all just have a laugh for a

minute about these idiots using the term BIPOC. The I stands for indigenous. So are we standing up for the rights of Vikings or what?

Of course the [argument "Anti-Zionism is not Anti-Semitism, why are you lying?"](#) is trotted out.

Because anti-zionism is code for anti-semitism.

I know it

You know it

They know it (whoever 'they' are, and they know who they are.
