

Former Head Of FOIA Dan Metcalfe On Hillary Clinton's Scandalous Excuses

[Here.](#)

And yet, Dan Metcalfe says in his very last sentence – the swerve – so great is his apparent fear of a Republican victory (any Republican?) that if she is the Democratic candidate, he will feel compelled to vote for her. If you read the article all the way through, you may, even if you are ordinarily a convinced deplorer and dismitter of all conceivable Republican candidates, come to a different conclusion. That last sentence, however, startles, and does make overwhelmingly convincing – the indictment of Hillary Clinton that before. How will her supporters, those eager courtiers of the shalala variety, deal with the charges made in this article? They can't. As for the last sentence – that conclusion is not necessarily the one others will reach.
