

LYING CAPTAIN BIDEN PREPARES TO TAKE THE HELM: SETTING SALE FOR CHINA?

by Howard Rotberg

Everybody knows that the dice are loaded
Everybody rolls with their fingers crossed
Everybody knows the war is over
Everybody knows the good guys lost
Everybody knows the fight was fixed
The poor stay poor, the rich get rich
That's how it goes

Everybody knows

Everybody knows that the boat is leaking

Everybody knows that the captain lied

Everybody got this broken feeling

Like their father or their dog just died

Everybody talking to their pockets

Everybody wants a box of chocolates

And a long-stem rose

Everybody knows

“Everybody Knows” by Leonard Cohen

If Captain Biden takes the helm, then we must realize that the War is over and the Chinese have already won. No thanks to the Bidens, Swallowell and Fang Fang, Mitch McConnell and his Chinese business-lady wife, Trudeau in Canada, the WHO and the brilliant biological warfare from the Wuhan (military) lab.

President Trump has taken a more aggressive stance toward China, implementing tariffs and other measure to protect American industry and jobs. But Joe Biden as Vice-President during eight years of Chinese ascendancy did little to advance American interests. With emails and other documentation showing the Biden’s business connections to China, we have a real concern about American national security and economic issues.

A friend of mine was bemoaning the extreme amount of corruption – with the stolen election, the ties between big tech, the fake media and their Chinese connections. She wrote me that we are “drowning in corruption”. I responded that

“when we are drowning in corruption and we come up for air, we shall be shocked to find out that the air will be owned by the Communist Chinese, having been sold in a deal made with the Clinton Foundation and the Biden group.

I have no worry that the Chinese will target me because they understand that those of us who have actually recognized what they have been doing do not have much power. But I would urge you all to keep reading the *Epoch Times*, which in my view is the newspaper of the resistance, all other newspapers having sold their souls to the anti-Trump, pro-China and pro-Communist globalist movement, with such luminaries as AOC, Greta Thunberg, and Kamala Harris, all cheered on by the New York Times, Washington Post, CNN and MSNBC, and the universities.

One of the most brilliant yet immoral moves by the Chinese was to institute spying and tracking equipment and then use it and other methods to round up and imprison the Chinese Muslims (Uyghurs) in de facto concentration camps. Few Islamists will attack China the way that they have the West. Islamists know who can be defeated and who not. That is why they first attacked France, England, America, Sweden and other western nations that have lost their cultural self-worth. The Islamists know that attacking China is way more difficult than attacking Western Europe and America.

China is taking steps against Muslims, Christians and Jews in China. They even persecute the Falun Gong, a Chinese movement that aspires to enable the practitioner to ascend spiritually through moral rectitude and the practice of a set of exercises and meditation.

Now we see the smarter Muslim states making peace and undertaking economic cooperation and trade with the Israelis. These all see Israel as the buffer against the nuclear crazies in Iran but also a way to preserve Islam from the only existential enemy in the world – China. Islamists will dare

not use terrorism to fight against China as they do not want to end up in the same concentration camps as their Chinese brethren.

In January of 2020, Dr. Charles Lieber, 60, Chair of the Department of Chemistry and Chemical Biology at Harvard University, together with two Chinese nationals working with him at his Harvard lab, were charged in connection with aiding the People's Republic of China.

According to the U.S. Department of Justice:

Harvard's Lieber Group had received from the U.S. government some \$15 million. These grants required the disclosure of significant foreign financial conflicts of interest, including financial support from foreign governments or foreign entities. Unbeknownst to Harvard University beginning in 2011, Lieber became a "Strategic Scientist" at Wuhan University of Technology (WUT) in China and was a contractual participant in China's Thousand Talents Plan from in or about 2012 to 2017. China's Thousand Talents Plan is one of the most prominent Chinese Talent recruit plans that are designed to attract, recruit, and cultivate high-level scientific talent in furtherance of China's scientific development, economic prosperity and national security. These talent programs seek to lure Chinese overseas talent and foreign experts to bring their knowledge and experience to China and reward individuals for stealing proprietary information. Under the terms of Lieber's three-year Thousand Talents contract, WUT paid Lieber \$50,000 USD per month, living expenses of up to 1,000,000 Chinese Yuan (approximately \$158,000 USD at the time) and awarded him more than \$1.5 million to establish a research lab at WUT. In return, Lieber was obligated to work for WUT not less than nine months a year declaring international cooperation projects, cultivating young teachers and Ph.D. students, organizing international conference[s], applying for patents and publishing articles

in the name of WUT.

The complaint alleges that in 2018 and 2019, Lieber lied about his involvement in the Thousand Talents Plan and affiliation with WUT. On or about, April 24, 2018, during an interview with investigators, Lieber stated that he was never asked to participate in the Thousand Talents Program, but he “wasn’t sure” how China categorized him. In November 2018, NIH inquired of Harvard whether Lieber had failed to disclose his then-suspected relationship with WUT and China’s Thousand Talents Plan. Lieber caused Harvard to falsely tell NIH that Lieber “had no formal association with WUT” after 2012, that “WUT continued to falsely exaggerate” his involvement with WUT in subsequent years, and that Lieber “is not and has never been a participant in” China’s Thousand Talents Plan.

Joe Biden followed Professor Lieber’s lack of honesty when he denied several times in public that he had any connection to his son’s businesses in China, Russia, Romania and Kazakhstan, notwithstanding that they had flown together in Air Force 2 to meetings with the Chinese on their joint business venture. Moreover, Joe Biden’s denials were made notwithstanding his son Hunter lost his computer which apparently has scandalous information on this. Moreover, a reputable and senior businessman and former naval officer, Tony Bobolinski, who was to have been their business partner has provided much evidence that Joe Biden was involved in the business, including disclosure of his share of the profits.

If Biden lied about his business connections to China, which considers itself the main competitor to the U.S. in terms of world power, did he also lie in denying allegations of sexual assault by a lady whose charges have been of little interest to the mainstream media?

The voting machines that are alleged to have cheated in Biden’s favour are owned by shareholders that include a Chinese company. According to Bowen Xiao of the *Epic Times* at:

<https://epochtimes.today/troubling-foreign-ties-behind-voting-machines-used-in-us/> , “Behind a significant portion of voting machines used in the United States lies a complex web of questionable foreign ties, a hidden ownership structure, and transparency concerns with the software itself, as well as a connection between three key voting systems companies: Smartmatic, Sequoia Voting Systems, and [TikTok](#), a social media platform run by a Chinese company that owes its allegiance to the Chinese Communist Party (CCP). TikTok currently is being probed by U.S. officials as a national security threat.

Captain Biden, I am sure likes to sail with the Chinese who have perfected the art of censorship of the press. Mainstream American media have buried stories pertaining to the Chinese funding of his son’s businesses and only discuss election fraud by using the adjectives “baseless” or “unsubstantiated” in front of the words “claims of election fraud.”

Indeed, the boat is leaking and the captain lied. If the boat sinks, our liberal democracy will not be far behind.
