

More Innocents Slaughtered by Arabism's Useful Idiots, and Congresswoman Omar is left Speechless

By Gerald Honigman

Two beautiful young Israelis, Yaron Lischinsky and Sarah Milgrim, were about to be engaged, but were wantonly slaughtered instead by a know-nothing, dhimmi useful idiot of Arabs in their non-stop quest to deny Jews in their sole, minuscule, resurrected nation what Arabs have gained for themselves on some six million square miles of territory via 14 centuries of non-stop jihadi imperialist, colonizing, settling conquests of mostly native NON-Arab peoples's lands: Kurds, Copts, black Africans, native, pre-Arab Lebanese, Assyrians, Amazigh/Kabyle/ "Berbers," native 'kilab yahud' (Jew dogs), and so forth .

To date, Arabs have thus acquired, mostly via forced Arabization and Islamization, almost two dozen states, including one on about 80% of the original 1920 Mandate of Palestine and known as Jordan today.

The recent war between India and Pakistan is an example of this non-stop effort to conquer "kafir"—Infidel—lands and peoples, and the murderous actions of the Arabized/Islamized blacks of Boko Haram in sub-Saharan Africa also exemplify this non-stop effort to acquire territories on behalf of the Dar ul-Islam.

And, of course, the overall Arab-Israeli conflict itself is another.

Does this two [thousand](#) year old coin at the top of this link have etched on it Iudaea (Judaea) Capta or Palaestina Capta ?

It was the Jewish People, in their ancestral homeland, which took on the conqueror of much of the known world in four major revolts against their Roman and Byzantine conquerors, clear up to the Arab invasions from the Arabian Peninsula—not “Palestinians.” There were no such people in existence then. The very name “Jew” is short for Judaeen, itself named for one of Jacob’s sons, Judah.

The name “Palestine” only arose as a result of the Roman Empire Hadrian, angered over the continued Jewish fight for freedom and independence in their Holy Land, renaming it “Syria Palaestina”—the land of the Philistines

The latter were non-Semitic “sea people” Greek invaders from Crete who came to settle in the area around Gaza today, and who we read much about in the Hebrew Bible—of David and Goliath and Samson and Delilah fame, for example.

Philistines were the Hebrew/Jewish People’s age-old enemies, so to put an end to the Judaeen/Jews’s hopes for freedom once and for all, and angered over Rome’s own substantial losses in trying to conquer Iudaea/Judaea/Israel, Hadrian renamed the land after the Jews’s historic foes

Congresswoman Omar was asked to comment about this horrific slaughter of two people on May 22, 2025 and refused.
