

Nashville Republican Women Meet Congressman Tim Burchett

Congressman Tim Burchett speaks to the Nashville Republican Women (credit: NRW)

by Rebecca Bynum

Yesterday [our chapter](#) of the National Republican Women's organization met with Representative Tim Burchett (who represents Knoxville in East Tennessee. He took numerous, thoughtful questions from the audience and discussed the Biden family corruption, our sell-out to China in many, many ways, the moral bankruptcy of our military leadership, especially after the disastrous withdrawal from Afghanistan and the crisis of confidence our two-tier Department of Justice has caused. He turned to the question of the UFO hearings very late and he conveyed that as a Christian he understood that God's creation is much bigger than we know and that he is personally convinced of the veracity of these sightings and reports. He was more concerned with how the whistleblowers have been treated by the Department of Defense. Imagine if the technology recovered had been shared with our best and brightest instead of hidden away and jealously guarded by the military.
