

Ouch! Butterfly Nominee

By Reg Green

Gore Vidal wrote that the journalists he dealt with didn't know much about anything, except the political opinions of their employers. Never was that clearer than in the midwife's role the media have played in changing the drab caterpillar we've seen as vice president into the radiant butterfly of presumed presidential nominee. OUCH! predicted it when Joe came under pressure from Nancy and Co. but the completeness of the changeabout has disgusted even him.
