

# 'Palestine,' Kurdistan, and Free Iran...the Stench of Hypocrisy is Nauseating

By Gerald A. Honigman

Since President Trump encouraged Iranians to rise up against their oppressive government, upwards of 12,000 innocent people have been murdered by the mullahs and their military.

Many observers have a serious problem with this.

Don't encourage people to risk their lives, with the hope that America will actually intervene bigtime if you're not serious about the promise. I'll return to this in an important link below in which the legendary Pulitzer Prize winning syndicated columnist, William Safire, wrote a series of articles related to the "Sellout of the Kurds" decades

ago.

The New York Post recently ran an excellent editorial on January 16, 2026 by David Harsanyi highlighting the blatant hypocrisy of those who caused massive disruptions on campuses all over the world, disrupting everyday life on city streets, launching flotillas, closing businesses, physically attacking and vilifying Jews everywhere, etc. and so forth on behalf of allegedly ARAB victims of Jews after the former carried out the greatest massacre of Jews in one day since the Holocaust .

If this repeatedly wasn't the pot calling the kettle black,

what is?

Here's the [NYPost opinion piece](#)...

Please recall the unbelievably huge massive protests against ISRAEL which erupted all over the world, in academia and elsewhere, after it was brutally, unprovokedly invaded by thousands of Hamas, Islamic Jihad, and just "ordinary" other Arabs on the Biblical Holy Day of Simchat Torah, October 7th, 2023.

The pictures the butchers posted on the internet are exemplified in [this next link in the Kurdish media](#), and be sure to include the two crucial internal links in your reading...

Instead of rallying behind Israel's Jewish and non-Jewish victims—the numerical equivalent of some 40,000 American civilians mutilated, burned alive, beheaded, gang raped, and slaughtered in additional sadistic ways—countless numbers of people supported Arab bloodlust for their hated kilab yahud "Jew dogs" instead.

Two millennia of anti-Jewish, Christian church teachings and indoctrination about "god-killing, perfidious, poisoner of wells, perpetual wandering, spawn of the devil Jews" once again surfaced.

Together with too many Arabs' useful idiots of the new "woke," left of Lenin Hamas and black African slave holding, trillionaire Arab oil potentates, who pour billions of dollars into academia to poison minds and promote one-sided indoctrination instead of education in universities, colleges, middle and high schools, this alliance of theologically based Jew hatred (part of Islam as well) and woke "Progressivism" has resulted in the sole resurrection nation of Israel Reborn and Jews everywhere being left standing alone...the victims of atrocities being blamed for their own victimization.

The aftermath of October 7th brought unspeakable tragedy to both parties in this conflict. But, make no mistake about the following...There's no "moral equivalency" here.

The casualties Arabs suffered in Gaza were a direct result of the atrocities Arabs deliberately committed against mostly innocent Israeli Jewish civilians.

The problem is that in most Arab eyes, there are no innocent Jews.

Once kafir infidel lands have been forcibly conquered in the name of the Dar ul-Islam and "purely Arab patrimony," they may never revert back to infidel status in the supremacist Arab mindset.

That Jews have four millennia of extensively corroborated history illustrating that Israel is indeed the ancestral homeland of the Jewish People, makes no difference. [See here for that](#) corroborated evidence;

Gaza Arabs freely elected Hamas to power some two decades ago, knowing full well that its charter calls for the total destruction of Israel and murder of Jews everywhere. Did they expect that Israel would simply put up with constantly being attacked without retaliation, not trying to end the terror once and for all?

What other nation in the world would put up with what Israel tolerated for so long?

Urban warfare is a nightmare, especially to the non-combatant population.

Israel was forced to fight this type of conflict because, instead of having areas apart from their civilian counterparts,

Hamas and other groups like it deliberately choose to embed themselves within that population—using women, children, and

others as human shields, a double war crime according to the Geneva Conventions on War, the Perfidy Clause in particular.

One of the world's leading experts on urban warfare at West Point [wrote an assessment \(actually many\)](#) of Israel's conduct in the Gaza conflict. It should be required reading for all so quick to pass judgment on Israel...

As the New York Post and other media outlets are now revealing, the time for the world to react to end the wanton slaughter of innocents by the genocidal mullahs of the Islamic Republic should be much sooner rather than later.

American and Allied bombers flew right over the railroad tracks and Auschwitz itself en route to targets in Nazi Germany—and not one bomb was ever dropped to try to slow the slaughter.

At the same time, President Franklin Delano Roosevelt refused to allow 1,000 German Jews aboard the SS Saint Louis to land in America and forced the ship away from American shores. They were forced to return to Europe, and most perished in the death camps.

He also permitted far fewer Jewish refugees to enter America during other times as well, even though the numbers were permissible.

Sadly, our beloved, great nation has had leaders who committed other such travesties over the years, such as the one which I offer below because it serves as a reminder about what we should not do this time around when so many courageous Iranians are being massacred in the streets and are probably being secretly hung indoors so no one sees, thinking that they're fooling President Trump.
