

"Palestinian" Abu Sitta And His Very Own "Holocaust Perpetrated By The Israelis"

[Here.](#)

It's quite a "holocaust" when the Arab population of Israel goes up six times under rule by these putative Nazi-Zionists, when Arabs receive – often for free – the most advanced medical care from Israeli doctors and in Israeli hospitals, quite a "holocaust" when, despite every conceivable provocation, not a single captured Arab terrorist, including those guilty of killing small children and the elderly in a bus, at a pizza parlor, in a car, at a school in Ma'alot, at a cafe, has ever been executed; all have received prison sentences. Some "holocaust."

The surpassing cruelty and viciousness of this kind of charge, and the kind of people – including the Egyptian television hostess – who are so willing to believe it and disseminate it, this kind of thing can never be forgotten or forgiven. It shows you minds, Arab Muslim minds, forever warped by the atmospherics and attitudes of Arab societies suffused with Islam.
