

# Stop the UN I want to Get Off

By Phyllis Chesler

The USA must stop funding the UN, a collection of sleazy, hypocritical tyrannies. And Jewhaters. The UN has never stopped a single genocide. It has never helped women or dissidents in war zones or in failed states. The UN has succeeded in one area only—when it comes to demonizing and delegitimizing Israel. That is their singular accomplishment.

Anne Bayefsky, Esq., has brilliantly covered all the shameful UN resolutions vis a vis Israel. How she has the stamina to do so, year in year out, is a miracle and a gift. [Read Bayefsky's latest piece at The Times of Israel](#) about how President Biden and Samantha Power plan to tie Trump's hands in terms of rewarding Hamas/Iran for terrorism and punishing Israel for daring to defend herself. Kudos also to Hillel Neuer, Mark Dudowitz, and Eugene Kontorovich for alerting us to this latest UN perfidy.
