

The Biden Administration Wants to Give Israel a Nine- Mile-Wide Waist

by Hugh Fitzgerald

Stephen Flatow has just reported on the Biden Administration's plans for bringing peace (or "peace") to Israelis and Palestinians. It's the same old "two-state solution" (if we call it a "solution," it surely must be that): squeeze Israel back within the 1949 armistice lines, forcing Israel to give up the Golan Heights and most of Judea and Samaria (a/k/a the

“West Bank”), leaving the Jewish state with a nine-mile-wide waist from Qalqilya to the sea. And after that Israeli surrender, we can all just hope for the best. His report is here: “Biden’s ‘Nine-Miles-Wide Plan,’” by Stephen M. Flatow, [*Jihad Watch*](#).
