

The Boeing CHAMP Missile-A Non Nuclear EMP – Does Israel have its Version under Development?

Boeing CHAMP non nuclear EMP cruise missile

We noticed that the Boeing CHAMP non-nuclear EMP missile is back in the news after first surfacing following US Air Force (USAF) Research tests in Wendover, Utah in October, 2012. CHAMP stands for [Counter-electronics High Power Microwave Advanced Missile](#). Yesterday, *Digital Journal* reported CHAMP's official announcement by the USAF, "[Boeing debuts powerful electromagnetic pulse weapon](#)".

The main development of CHAMP comes from Boeing, and it appears the project has been underway
