

The Momentum In War, President Trump, & forcing Israel to Relinquish this Important Military Advantage...

By Gerald A. Honigman

Question: What is the only nation and people throughout modern history which have repeatedly been denied victory over not just their enemies, but genocidal, maniacal ones at that?

Answer: The Jew of the Nations, Israel, and the perpetually and deliberately targeted and slaughtered Jewish People.

These aren't Arab civilians killed because their heroes, whom they freely elected to power twenty years ago with President Jimmy "Apartheid Israel" Carter overseeing the election, habitually use them as human shields, and who have ignored millions of leaflets, thousands of cell phone calls, and so forth warning them to move out of harm's way.

Leading experts on urban warfare [have marvelled at how hard Israel](#), so viciously attacked by Hamas, Islamic Jihad, and just plain "ordinary" Gaza Arabs, has gone to such great lengths to avoid harm to its bloodlust filled foes' non-combatants...

President Trump's latest ceasefire deal, forged in cooperation with Hamas enabling Turkey and Qatar, was forced upon a war weary Israel against its own much better wisdom and wishes. It's a [version of this](#)...

Israel knows its non-compromising rejectionist, supremacist enemies better than anyone else does.

Yet, The Donald repeatedly acts as though it's a beleaguered Israeli Prime Minister who is unreasonable and stubborn because he refuses to acknowledge Trump's alleged "better" comprehension of what's actually transpiring in the [Hamassired Gaza conflict](#). Or earlier with Iran as well...

It was no surprise to anyone who has observed this overall conflict that Hamas would not own up to most of its obligations.

So, Israel is this back to square one, after having lost the equivalent of about 40,000 American dead 19-25 year old soldiers, and a like number of its innocent civilians brutally attacked on October 7th, 2023.

Gaza ain't Israel...

But Gaza, with countless billions of dollars in aid provided to it over the years, could have become a prosperous entity if the funds weren't devoted to constructing tunnels, acquiring weapons, teaching Jew hatred, and so forth aiming to destroy its neighbor.

By the way, Gaza has a rich Jewish history dating back millennia, and was part of the original 1920 Mandate of Palestine until Egypt illegally seized it in Israel's War of Independence in May 1948. It certainly was never meant to be Judenrein.

For the sake of huge business deals sealed with autocratic, non-democratic Arab petro-potentates, Israel, once again, after being repeatedly and wantonly attacked with atrocities committed by Arabs unimaginable (who stoops to microwaving infants and beheading them, etc.?), was forced to cease and desist.

True, it got some living hostages back, wonderful for sure.

But in return it released thousands of Arab butchers and wannabes, who'll live to slaughter Jews another day—like Yahya Sinwar, who was released in a previous swap of Arab murderers for Jewish innocents, including dead bodies. Recall Sinwar directed the Simchat Torah massacre on October 7th, 2023.

When any army fights a war, gaining momentum is a top priority.

It's the strive for the armed forces to gain control of the tempo & direction in conflict in order to rapidly build upon successes to maintain an hoped for unstoppable advantage.

Unlike Gaza or the Arabs under control of Hamas's flip side, the latter day Arafatian terrorists in suits of "pay to slay (Jews)" Mahmoud Abbas's Fatah who pocket billions for

themselves and spend funds on weapons and teaching youth from diapers through university to hate and murder "kilab yahud" Jew dogs, Israel is nation in the forefront of technology, innovation, assisting other countries all over the world, but has also been economically and emotionally traumatized because of having to continually fight a seven front war.

No one in Israel wanted this conflagration to occur. Jews cherish life, and far too many Arabs idealize death and slaughter of Islam's kafir infidel enemies—especially Jews, one half in Israel who fled Arab/Muslim lands, the Sefardim and Mizrahim other side of the refugee coin no one ever hears about because an Israel the size of New Jersey didn't stick its brethren into squalid refugee camps as Arabs did with their own, crested due a combined Arab attack on Israel seventy seven years ago.

So, the very predictable has now happened.

Hamas brazenly struts through Gaza killing all of its rivals and those whom they suspect cooperated with Israel, and new arm shipments to it have already been intercepted, with others probably already getting through in the areas President Trump's latest "deal" forced Israel to withdraw from.

It didn't take the likes of a Carl von Clausewitz to figure out that Trump's deal was extremely problematic

President Trump is now threatening Hamas that "there will be hell to pay" if it doesn't disarm and so forth.

Hamas is laughing because its Qatari and Islamist Turk protectors and enablers are on cordial terms with Trump and are business partners for his, Witkoff's, and his other real estate and other business partners interests.

A war torn Israel will now likely have to sustain far more casualties because it has lost the momentum in war it so painfully gained after two years of booby trapped, house to

house fighting, and a massive condemnation from Western hypocrites who would have never put up with what Israel had endured for so long before finally acting to try to solve this existential crisis once and for all.

Any nation faced with such a genocidal foe, whose charter calls for its total destruction, [has no other option](#) but...
