

The Nazification Of The Palestinian Arabs

The [Gazan imam asks and answers](#): “What was it about the Jews that made the Nazis kill them?”

And the answer turns out to be that they spread corruption in the land like nobody’s business, and the Prophet Muhammad found that true in his day, too.

I wonder how the boys at Ha’aretz will explain away this, as they explain away so much of what the Arabs, especially the Palestinian Arabs, say and do and think, because at Haaretz, the real enemy is always those Jews who are so annoying, like Netanyahu, Bennett, and the others who still refuse to get with the Haaretz ignore-Islam-and-ignore-reality program, the one sure to bring peace in our time.
