

The Travesty Never Ends

By Armando Simón

It has happened again.

At the Olympic Women's Boxing event, a man posing as a woman has beaten his female opponents (what a surprise!). His arm length exceeded the women's not to mention his strength. These womens' hopes for an Olympic medal went up in smoke. But the man is assured to be given an Olympic medal. Thanks to the PC Olympics Overlords, the same ones who gave us the obscenities at the Politically Correct opening ceremony. *

To add insult to injury, the Italian boxer has been forced to apologize to the man for saying the bout wasn't fair.

Among others, I have been "screaming" since 2019 against something so patently, obviously wrong, but our Overlords insist on ramming this horse manure travesty down our throats to the detriment of women. It is 2024. As André Gide stated, "Everything has already been said, but since no one was listening, so it is necessary to say it again."

The [trannies](#), those men who pretend they are women and insist that everyone else must go along with their delusions or their feelings will get hurt—and we can't have that! Some of them having been mediocre in men's sports, they have donned lipstick, entered women's

[sports](#) (with the enthusiastic approval of leftist officials) and walked away with the [honors](#), [prizes](#), [fame](#) and scholarships that should have rightfully gone to girls and women (nor is it just [sports](#)). In the process, they have [injured](#) female opponents. [They](#) have also intruded on women's areas. Cases in point: when a real woman objected to one of these fake women using the women's bathroom at [Planet](#) Fitness she, not the transgender, had her membership cancelled. A man playing in a girls' [volleyball](#) team sent a real [girl](#) to the hospital. A behemoth claiming to be a woman [broke](#) a woman's knee in a soccer game in the UK. A female field hockey player in high [school](#) ended up in the hospital because of a man playing in the [game](#). A [balding](#) man claiming to be a woman injured three women in a rugby [game](#). A man with a [beard](#) claiming to be a woman slammed a girl to the ground while playing basketball in a girls' team.

And so on.

There is a Korean TV series titled *Physical 100* where 100 male and female athletes in superb physical condition compete in identical grueling, backbreaking tasks. On one-to-one

competitions, the females compete against each other, in group competitions they are integrated. One by one, the females lose. Even with women who are uber-athletes, they tend to lose to male uber-athletes.

The Atlantic magazine is one of the many propaganda outlets of liberals. It came out with an article, "Separating [Sports](#) by Sex Doesn't Make Sense." It at least illustrates that anything can be justified by a liberal intellectual, no matter how absurd, or how criminal.

Worse, leftists have coordinated a campaign to erase women's identity by calling [them](#), not women, but "menstruators," "birthing persons," and "individuals with a cervix." I suppose my son he will tell me, "Dad, I'm going to go on a date with a menstruator." What could be more enticing?

And insulting.

I [have](#) been one of those [writers](#) who have again and again spotlighted the absence of the odious, trigger-happy feminists at a time in society when, for a change, their presence would actually do a lot of good. Not only have attacks on women not changed but appear to have increased. Everyone has witnessed the vociferous output of vituperation by feminists when women are referred to by men in demeaning terms, or even have mild jokes directed at women.

Now they are silent.

Well, not quite.

[NOW](#) (National Organization of Women) issued this statement, replete with the typical feminist gibberish: "Repeat after us: Weaponizing womanhood against other women is [white](#) supremacist patriarchy at work. Making people believe there isn't enough space for trans women in sports is white supremacist patriarchy at work."

So now, it is *official*: the feminists don't give a damn about women.

So much for Sisterhood

*A clarification, the man is not a transgender, but does have XY chromosomes.
