

The World Must Not Bow to Arab Oil Potentate Influence by Relegating October 7th to the Back Burner of History

By Gerald A.Honigman

A comprehensive study came out on May 12, 2026 dealing with what academia and too much of the rest of the world has chosen to forget or treat as yesterday's news, "October 7: Barbarism Beyond All Imagination." Here's the [Daily Mail account..](#)

Let me begin by stating that there are some notable exceptions to what I've written below.

Naama Levy was manhandled into the back of a car, the bloody stains on her tracksuit bottoms grim proof of the horror that had already befallen her

The United Arab Emirates and Israel, for example, have established close ties, with Israel coming to the defense of

the UAE in the current war with Iran, largely as a result of the Abraham Accords. Azerbaijan, and Morocco are other examples, as is Bahrain and the new black African Muslim nation of Somaliland.

The problem, however, is that while government to government relations may improve, the Arab Street still remains as antisemitic as ever due to age-old religious teachings about "kilab yahud" Jew dogs, killers of prophets, sons of apes and pigs, and so forth preached by dominant Salafi and other imams in the mosques weekly.

The Muslim Brotherhood, Hamas's big brother, is rabidly Jew hating and is very popular in Arab and other Arabized and Islamized countries. Jordan and a very problematic Egypt especially come to mind.

Egypt has been violating provisions of its peace agreement with Israel by moving large numbers of tanks and such into what's supposed to be a demilitarized Sinai Peninsula. It has also recently participated in war games near the Israeli coast with China, a major ally of Iran.

Besides the unspeakable savagery of October 7th, 2023 primarily targeting Jews, Arabized blacks in Boko Haram and other groups have massacred over a hundred thousand other blacks (largely Christian) in Africa just in recent history,

Arabized Indians on the subcontinent in their breakaway nation of Pakistan have started several wars by slaughtering innocent Hindus, Buddhists, and others in India and elsewhere.

This murderous Arab Islamic mindset and drive for religious conquest to spread the Dar ul-Islam (jihad) has reached the Philippines, Thailand, Indonesia, Malaysia, and other places as well.

And it's now reached Europe and America too in various forms, including p"Stealth Jihad." Hint: There's more than one way to

take over kafir/infidel lands, like out breeding them in their own countries. And if those are democracies, guess what else...?

There are virtual no go zones all over the above nations for non-Muslims, and while some come into these new lands to better their lives, too many have "other" goals as well with no loyalty to their newly adopted nations.

As long as this doesn't translate into violence, as has indeed happened with too many Somali black African Muslims, this is acceptable (perhaps).

But unless America wants to get the nightmare some nations in Europe are already witnessing (Sweden, Belgium, Great Britain, France, etc.), our leaders must put political correctness aside and handle this accordingly.

With all this happening, the world can only blame Israel for not agreeing to national suicide to appease its would be—and actual—murderous foes. Why am I not shocked? It's that age-old "Jew thing" again. But I mustn't say so because real, virulent, antisemitism is just a figment of Zionists's imagination.

Since I brought up the "Z" word, it's simply the Jewish People's desire to have in one resurrected, reborn nation what ARABISM has conquered and stolen for itself on over six million square miles today on almost two dozen of their own.

"Zion" is the hill on which King Solomon built the First Temple in Jerusalem honoring G_d, also known as Mt. Moriah, where the Jewish Patriarch, Abraham, was tested by G_d and stopped from sacrificing Isaac a thousand years earlier.

First referring to the Holy site and Jerusalem, Zion soon became equated with all of the Jewish People's ancestral homeland as well, territory on both sides of the Jordan River which were the original divisions by the Patriarch, Jacob (later renamed by G_d, Israel, after his encounter with the

Holy One of eternity at Peniel in the land assigned to the tribe of Judah) to his sons, the Twelve Tribes of Israel.

I try to not generalize, but, as a serious student and educator, I can say that one would be hard pressed to find another specific ethnic group (and those whom they forcibly converted to their intolerant, supremacist, conquering belief system) who either routinely have done this sort of unimaginable, bloodlust butchery documented in the new report, or supported the atrocities themselves—passing out candies, taking selfies with murdered victims and posting them on the internet, etc. and so forth.

Not mincing words, I am talking about far too many Arabs—whether the slaughtered are Israeli Jews, over half of whom are from Mizrahi and Sefardi Jewish refugee families driven out of their homes in the misnamed “Arab” world (more than Arab refugees who fled the fighting they themselves started in 1948), countries gassed to death and otherwise murdered Kurds, Yazidis, nDruze, Egyptian Copts (the actual native Egyptians), Assyrian and Chaldean Christians, [Amazigh and Kabyle “Berbers” in North Africa](#), Hindus and Sikhs in India, black Africans, or other victims of ARABISM as well...

The world so quickly chooses to forget all of this, the equivalent of 40,000 innocent American civilians slaughtered on one single day, as described above and also seen in the links below.

Earlier, as a result of President Clinton and chief point man Denis Ross’s infamous Oslo Peace (of the grave) Accords in 1991, when Israel was forced to hand over 4,000 year old ancestral Jewish homelands in Judaea and Samaria (not renamed “West Bank” until British imperialism lopped off some 80% of the original 1920 Mandate of Palestine in 1922 and gifted it to ARABISM with the creation of what’s now Jordan), after Arabs blew up nunneries buses, ice cream parlors, teen nightclubs, Passover Seders, and so forth, they opened a

museum, complete with plastic models of actual Jewish body parts hanging from rafters of the Sbarro Pizzeria they blew up in Jerusalem...["Bombing exhibit draws ire"](#) – JTA

Again, what other deranged, bloodthirsty miscreants do such things except these Arab enemies the Jews and millions of others face?

Massive, violent antisemitic demonstrations and physical assaults are breaking out all over the world, especially right here in America.

Israel is accused of every sin under the sun with very little actual evidence to support those claims.

Jews are then condemned and denied the right of self defense and pursuit of the butchers of their innocents.

And don't morally equate Israel's pursuing cowardly butchers and gang rapists who regularly commit atrocities and run back to hide behind their own women and children, using them as human shields, with Israel's defensive actions and beyond.

Israel, like any other nation, has a right to aim to defeat its assorted existential enemies, whose very charter calls for its destruction and slaughter of Jews everywhere.

For the Arabs numerous useful idiots, [a reading of what the actual experts on urban warfare](#) have to say about Israel's conduct of the war with its openly admitted, would-be executioners is a must:

Keffiyeh clad know-nothings demand the destruction of the sole, minuscule, resurrected nation of Israel, often raised on Church and Mosque-inspired Jew hatred.

Students of university courses skewed via billions of dollars of Jew-hating Arab oil potentate money over the decades, they have no real balanced knowledge of the actual history of the region and of the real estate composing the historically well

corroborated 4,000 year ancestral homeland of the Jewish People—not the far more recently arriving Arabs, who came as alien, colonizing, setting jihadi conquerors of hundreds of millions of native, none-Arab peoples and their ancestral homelands.

ARABS were [the relative newcomers into the land](#), not the Jews...

From the early 7th century C.E., Arab hordes pouring in from an increasingly desiccating Arabian Peninsula, flooded, colonized, and settled lands of Judaeans (Jews), Zoroastrian Persians, North African Amazigh and Kabyle “Berbers,” Egyptian Copts, sub-Saharan black Africans, Hindu and Sikh Indians, descendants of Phoenician Lebanese, Kurds, and others as well...

And then had/continue to have the audacity to claim that by virtue of the violent theft of other people’s ancestral homelands, that only Arabs and those whom they forcibly Arabized and Islamized possess any rights at all in the entire region of the Middle East and North Africa (MENA) and other lands conquered as well.

“Purely Arab Patrimony” is how Arabs describe this theft—and then, once again get countless useful know nothing idiots to join their cause...the ever increasing spread of the Dar ul-Islam at the expense of the rest of the kafir/“infidel” world’s territories. Jews can’t even attend services here in America without being physically assaulted.

Using Judaea as one example, the Jewish People fought four major revolts against the conqueror of much of the known world, Rome and its Byzantine successor, clear up to a few decades before the Arab onslaught into their four millennia ancestral homeland. Here’s some of ancient Rome’s major historians on this subject...

The last revolt had Sasanid Persian armies aiding the Jewish

People's fight for freedom and independence...

In international law, a people does not lose its claims to ancestral homeland because it has been repeatedly invaded by powerful foreign empires and had a substantial part of its population slaughtered or exiled from the land.

The very name "Jew" is short for Judaeen—a person whose origins is in Judaea/Israel, from the days the Hebrew Patriarch, Abraham, arrived in Hebron from Ur of the Chaldeans in Mesopotamia 4,000 years ago, through the anointment of David of Bethlehem as King of Judah and Israel 900 years later; the building of the First Temple by King Solomon in Jerusalem; the Babylonian Captivity and their return after King Cyrus the Great of Persia freed them from Babylonian rule about four centuries later; during the revolt of the "Maccabees" (warrior 'hammers') for the freedom of [Judaea against pagan Greeks and Syrians](#) just a few centuries before Rome's arrival, etc...

Jews—not Arabs—fought for freedom and independence throughout the lands of Israel, Judaea, and Samaria—including Gaza and the Golan Heights as well. That some land was lost via the conquest of foreign invaders did not erase Jewish ancestral rights in those areas.

In Gaza, for example, the ancient Philistine "Sea People" who arrived from the Greek Islands around Crete were the Hebrews/Jews' main enemies.

Open [the following link in the Kurdish media](#), and note that the butchers, mutilators, and gang rapists of October 7th included just "ordinary" Gaza Arabs who gleefully joined in Hamas and Islamic Jihad's wanton atrocities and next posted

their exploits on the internet, and they had willingly elected Hamas to power two decades earlier.

The new May 12, 2026 report, "October 7: Barbarism Beyond Imagination" should be required reading in all high schools and universities, as well as by anyone else wanting to take part in discussion or debate on this subject.
