

Third McDonald's store flooded with mice by pro-Palestine protesters

From [Metro](#)

A third McDonald's in Birmingham has been flooded with mice after pro-Palestine activists released the rodents inside the fast food chain. Footage shows a group of men storming inside the building in Small Heath, chanting 'free Palestine' and waving the country's flag.

The group repeatedly shout 'f*** Israel' before fleeing.

[A third incident](#) with people using live mice to vandalize a McDonalds in the UK. All I can say is that I hope the people behind this will all be involved in horrible accidents

involving hot frying oil.

My sentiments precisely.
