

Tommy Robinson ~ Panodrama

Tommy Robinson will be in Salford this afternoon at Media City which is the northern HQ of the BBC and a few other TV stations.

He will be showing Panodrama, exposing the BBC, fake news and the lies of Hope not Hate. The BBC was intending a Panorama episode called "Tommy Takedown" (for non UK readers this is a long-running politics programme, often goes undercover, once had a great reputation) to 'expose' him; but with the help of trusted friends he has turned the tables.

Brian of London writes about the MSM i[what will be exposed](#) includes the comments of journalist John Sweeney that he once met a white working class man called Danny in the BBC green room (pre broadcast refreshment and waiting area).

"...it was unusual to meet a white working class male in the Newsnight green room. It was so unusual that me and one of my mates went down there to have a drink with him in the way that you would do with somebody, from the, you know a cannibal from the Amazonian, erm, from Amazonia or maybe a creature from outer space,"

The broadcast will begin at 2pm on a screen brought in for the purpose. I can't be there but I know some who will be in

attendance, and a live stream is expected.
