

What About Us?

Heidi Mund, the German woman who has been a one-man multitude, confronting Muslims spouting Nazi-par antisemitism, and famously interrupting an imam who, as part of that interfaith-healing racket, was offering a Muslim prayer as part of a performance at a church, received and twitted a communication from one Rotem Avituv, who I assume is an Israeli by origin. Here it is:

The words of Dr. Rotem Avituv:

"Merkel said that the Muslims children deserve to live without fear in our country. What about the German children? And European children? We live everyday with fear of the Muslims! Women can get raped in main cities, men can be beaten, German Jewish people cannot speak Hebrew in Berlin in fear or being attacked.. Merkel, you do not care about the people of Germany, you care about the Muslims who lied that they are "refugees"! Nonsense, they are leeches that just want our money, jobs, girls, boys, to destroy our culture, our religions, our tradition and to intimidate us! Muslims must return to their Home Counties, Germany is not their home, not their blood and not their heritage!

They came here to kill us and to take our country! Europe is NOT a trash-can to throw Muslims in! Many are terrorists that Israel had to release from prison after bad deals with Hamas. Muslims, Merkel and other false EU "leaders" that don't represent us, are the main reason we live in fear, because they only cares what other left-winged EU countries will think of us! WIR SIND DAS VOLK UND EUROPA! For our families! For now and our future!" Keep our counties as they always were: OURS!"
