

Where Things Stand

by **Mark Anthony Signorelli** (February 2015)

I feel as though this essay requires a sort of apology. To offer yet one more reflection on the *Charlie Hebdo* incident, at this late date, and with the presumption of saying something which has not yet been said about these events by dozens of other intelligent writers, may risk trying the patience of many readers. But the fact is that among the avalanche of commentary set in motion by these murders, I have found little that reflects my interpretation of their significance, and much that strikes me as grossly misleading cant.
